## **Creating an Even Better Place to Work**

IMAGINE your people highly engaged, feeling valued, motivated, taking ownership for their own issues, managing differences and talking to each other rather than about each other. What difference this would make to morale and productivity?

Would you like a hands-on experience?

On **1 March 2016**, Shay McConnon will demonstrate the leadership and engagement tool he has created, which is transforming the cultures of leading organizations such as Rolex, Siemens, Emirates, BNP Paribas, and others. Experience the “**An Even Better Place to Work™**” solution first hand—complete the indicators, take part in the interventions, track progress.
